“Your husband has Pancreatic Cancer and his odds of survival are 5.4%”.

Instead of celebrating our first wedding anniversary in Nantucket, we were sitting at Mass General Hospital confronted with our biggest fear; losing one of us. Even though my heart was breaking, I knew that I was not going to take this sitting down. My love was not going to die! I was determined to improve his odds no matter what it took or whose opposition I had to face.

This is our story. It’s about our love, our commitment to learning and each other, our faith and the people that helped us.

There is nothing fictitious in this book. I have poured my heart and soul into it and if it helps one cancer patient and/or his loved ones, then my mission is accomplished.
